

Festive Celebrations

Pongal Festival Celebration

This learning journey is for P2 to P6 Tamil pupils. Last year, they went to the Heritage Carnival at Little India in conjunction with the Pongal Celebration.

The objectives of such learning journeys are two fold, i.e. to provide the platform for pupils to immerse themselves in the Indian culture as well as to use the Tamil language beyond the school context.

In the Pongal carnival, students gained better understanding of the origins of the festival, they were also engaged in a variety of interactive activities, such as learning how to play traditional Indian games, exposing to the martial art form of Silambattam and watching the traditional dance Karagattam, etc.
