

MT School-Based Reading Programme

Buddy Reading Programme

In our continuous effort to cultivate the passion for reading among the pupils, the Mother Tongue Department conducts the Buddy Reading Programme, which has notably received much favourable feedback over the years.

In the course of the programme, your child will be selected to either take on the role of the Reading Mentor or Reading Mentee. The pupils will be trained in a range of reading and comprehension techniques, which we believe will help them build up their Mother Tongue Language competencies.
